Hi Paul.

Thanks for the minutes. Yes, the call is still on. I would like to focus on the remaining concerns discussed in our last conference call regarding the revised Data Gaps SAP Addendum 1.

Thanks,

Tanya

Attached. I did not send these yesterday as I was not sure we are having a call today – but just got in and saw a reminder, so here are the draft minutes. Please confirm that we are having a call. My notes indicated a potential meeting last week that didn't happen, I had adjusted my calendar for next call on the 30<sup>th</sup>, but that might be wrong.

I also have additional comments on the Congeners which I am preparing for sending over. Still need to review a few items on the dioxins/furans.
